I am a Front-end Developer with 4+ years of experience in the R&D Software Industry, with an M. Tech focused on Software Engineering from BITS, Pilani. Passionate about crafting engaging and user-friendly digital experiences with a keen eye for design and a strong grasp of the latest web technologies.

EXPERIENCE

OCT 2021 – PRESENT (2.5 years)
DEVELOPER, SAP LABS

Being a part of SAP UX S4 HANA team, my responsibilities were.
- Developing a new Home Page for S4 HANA, which is used as the central point of launchpad for any application of S4 HANA suite.
- Continues enhancements on the home page with a lot of new features like drag & drop of items, full screen view, animations and providing personalization of the tool to each user.
- Maintaining and fixed bugs and handling customer tickets.
- Being involved in multiple development tasks such as user research, planning, design & release.

JAN 2020 – SEP 2021 (1.5 years)
ASSOCIATE DEVELOPER, SAP LABS

Being a part of SAP UX UI5 team, my responsibilities were.
- Developing new features and controls for SAP's front-end framework SAP UI5, which is used by all the fiori applications across different teams.
- Developing different fiori elements and reusable suite controls for the core framework SAP UI5.
- Creating graphical controls to visualize complex network structures using D3 library.
- Unit testing using karma.

AUG 2017 – DEC 2019 (2.5 years)
SCHOLAR@SAP, SAP LABS

Scholar@SAP is a globally recognized WILP in partnership with BITS Pilani. Where I had the opportunity to rotate across different SAP business areas and explore different technologies.
- Contributed to migration of SAP Business Object dashboard from adobe flash to latest technologies. Developed a new analytics dashboard using SAP UI5 framework.
- Contributed in SAP API Management to develop the user interface.
- Consume REST APIs to and performing CRUD operations.
- CI/CD of the application on SAP Cloud Platform.
